The Southwest/Texas Popular Culture and American Culture Associations' annual conference is one of the nation's largest gatherings of interdisciplinary scholars. Panels are now forming for all of the SW/TX PCA/ACA individual subject areas, including the **Television** area.

**The Television Area Chair invites interested scholars to submit papers on any aspect of television (current and past shows, content, television as a media format, the possible future of television, television effects or cultural impact, television and society, television artifacts and rituals, theories and criticism of television, the television business, etc.)**

Scholars, teachers, professionals, and others interested in television are encouraged to participate. **Graduate students are also particularly welcome, with award opportunities for best graduate papers.** If you wish to form your own television-focused panel, I would be glad to help facilitate your needs. Please submit 100-200 word abstract or panel proposal with names of all participants by Dec 1 to the conference database <http://conference2012.swtxpca.org>.
