More about the SF&F Area:

With an average of 70+ presenters annually, The Science Fiction and Fantasy Area of the

Southwest and Texas Popular Culture and American Culture Associations is one of the most dynamic and well attended areas at the conference. Numerous book and article publications have originated from our panels.

The Area was founded in 1995 by Prof. Richard Tuerk of the Texas A&M University-Commerce (formerly East Texas State University) and author of *Oz in Perspective* (McFarland, 2007). The Area is currently chaired by Ximena Gallardo C. of the City University of New York-LaGuardia and co-author of *Alien Woman: The Making of Lt. Ellen Ripley* (Continuum: 2004), Alyson Buckman of the California State University-Sacramento and winner of the 2011 Mr. Pointy Award for best essay in Whedon Studies; Tamy Burnett of the University of Nebraska-Lincoln, co-editor of *The Literary Angel* (McFarland, 2010); and Brian Cowlshaw of Northeastern State University, author of "No Future Shock Here: *The Jetsons*, Happy Tech, and the Patriarchy" (*The Galaxy is Rated G*, McFarland: 2011). Though the co-chairs consult on submissions, Ximena is primarily responsible for the general organization of the conference panels and coordinates special panels, Alyson and Tamy coordinate the Whedonverse panels (Buffy, Firefly, Angel, and etc.), Tamy coordinates annual special topics related to SFF television, and Brian reviews and organizes the literature panels and other special topics (this year *Twilight* and *Game of Thrones*).

Area Co-Chair Names: Alyson Buckman, Tamy Burnett, Brian Cowlshaw, and Ximena Gallardo.
